

❖ **Health Care Science students of GSSS, Namchi Girls**

On 9<sup>th</sup> and 10<sup>th</sup> of November 2011, class XI students of GSSS, Namchi Girls visit the District Hospital, Namchi along with their faculties for the partial fulfillment of their practical syllabus. Under the guidance of Ms. Tarun, DHCO, students visit the different sections such as OPDs, ENT, Ophthalmology, Gynaecology, Orthopedics, Paediatric, Neonatal, Medical, Surgical and Obstetrics. They were demonstrated the working of various medical equipments such as Ventilators, Monitors, Defibrillator, Infusion pump, X-ray machine, Ultrasound, Oxygen cylinder, Suction apparatus, ECG machine, Boyles's apparatus etc.

Next day, students went to see the Kitchen, Operation Theater, Mortuary and Sterilization room where they learnt the sterilization procedure by using autoclave. They also learnt to use Glucometer, Pregnancy kit, Hemoglobinometer and the technique of Biomedical Waste Management by using three colour coded containers. As a whole, the visit was informative and interesting for the students as they got a chance to learn practically about their subjects.

❖ **Report on one day hiking to Rami Dham by Tourism students of GSSS, Kaluk**

On 2<sup>nd</sup> September 2011, one day hiking was organized by students of Tourism stream under the guidance of their faculties. The destination was Rami Dham located 4 km away from Kaluk. Total thirty students were there in the programme. Faculties gave basic concept of hiking, trekking to the students.

❖ **Visit Report of Health Care Science stream of GSSS, Sadam**

Health Care Science is a practical oriented course so it needs lots of practical work and exposure. To cover up their course properly, students of GSSS, Sadam visit the Primary Health Centre, Melli, South Sikkim.

During this visit, introductory class was done in Conference hall of PHC, Melli. First, Dr. S. Bhutia delivered the lectures on the disease 'Tuberculosis' the symptoms, treatment etc. Then Dr. R. Pradhan again described the some disease in details. They then visited laboratory of the centre where Ms. Julia Lepcha showed the prepared slide of the TB causing Bacteria/virus inside microscope. Then they moved towards the DOTS insuring section. Nine patients were using DOTS through this centre.

The visit was fruitful to all the students involved. Students get more knowledge through this visit in compare to the classroom; they also get a chance to familiarize the equipments and instruments of the PHC.
